

Vinyl Coated Welded Wire Mesh

Description -

- Galvanized welded wire mesh underneath
- Black most common, some items available in Green
- Coating gives double protection from rust and corrosion
- Thick PVC coating is tightly bonded to wire - will not peel
- UV inhibitors in the vinyl retard degradation from sunlight
- Coating is flexible and durable - will not crack when the wire is bent

1"x1" mesh

Benefits -

- Extremely strong and durable
- Attractive - non-intrusive to landscape
- Easy to clean when used in animal cages
- Weather proof - rust and corrosion resistant
- Toughest, longest lasting wire mesh available
- Black coating is unobtrusive - blends with the background
- PVC maintains its qualities in extremes of hot and cold temperatures

1"x2" mesh

Uses -

- Lobster traps
- Kennel flooring
- Screens and partitions
- Swimming pool fence
- Yard and garden fence
- People control in public areas
- Barriers and cages for animals
