

Sheep & Goat Fence Stiff Stay Knot - High Tensile

Description -

- Roll size: 48" x 330'
- 10 year limited warranty
- Made in USA by Stay-Tuff
- 4"x4" woven mesh throughout
- Fence installs easily over uneven terrain
- 12-1/2 gauge high tensile horizontal wires
- 12-1/2 gauge medium tensile vertical wires
- Class 3 galvanizing for long life and durability
- Smooth knots will not injure animals or people
- Deeply crimped line wires allow fence to remain tightly stretched
- Up to three times the life and stronger than low tensile alternatives
- 4"x4" mesh helps prevent animals from putting heads through fence
- One piece vertical and horizontal wires joined by strong Stiff Stay knots
- High tensile strength allows fence to absorb impacts from animals, falling trees and snow

Benefits -

- Long lasting rust resistance
- Extremely strong and durable
- Fewer posts are required than low tensile fences
- Designed as a strong confinement fence for sheep and goats
- Woven construction allows fence to conform to uneven terrain
- Small mesh openings discourage animals from putting heads through openings

Uses -

- Property line fence
- Perimeter fence for gardens
- Protective fence for sheep, goats and other animals
