

Hex Netting 1" mesh - 20 gauge VC - Black Vinyl Coated

Description -

- Made from 20 gauge wire
- Vinyl is stable under wide range of temperatures
- UV inhibitors protect against sunlight degradation
- PVC is extremely resistant to cracking and weathering
- Protective zinc coating under PVC resists rust and corrosion
- Pre-galvanized 20 gauge wire woven into 1" hexagonal mesh
- Double protection - thick coating of black PVC tightly bonded to galvanized wire

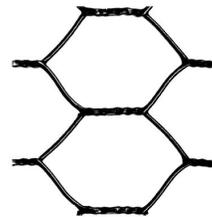

Benefits -

- Choice of different heights
- Vinyl coating means long life
- Economical light weight mesh
- Excellent product for deer fence
- Ideal for a variety of applications at home or farm
- Black color blends into background - virtually invisible

Uses -

- Rabbit fence
- Chicken coops
- Game bird flight pens
- Deer fence - 84" and 90"
- Small mesh garden fence
- Tree and shrub protection
- Nuisance animal exclusion
- Ground wire prevents animals from digging
