

## Woven Wire - Non-Climb 2" x 4" mesh

### Description -

- Made in USA
- Bekaert and Stay-Tuff products
- Knots resist rust - will not hold water
- Stiff knots securely hold horizontal line and one piece vertical stay wires together
- Three finishes:
  - ~ **Galvanized** (Class 3) - 12-1/2 gauge high tensile horizontal and vertical wires
  - ~ **Zinc Aluminum (ZA)** - high strength 12-1/2 gauge horizontal wires, 14 gauge vertical
  - ~ **ZA + black paint** (Bezinal) - 12-1/2 gauge horizontal and vertical wires
- ZA finish: 95% zinc, 5% aluminum - lasts three times longer than Class 1 galvanized
- Bezinal finish - UV stabilized black paint over ZA - lasts longer than Class 3 galvanized

### Benefits -

- Low maintenance
- Heavy-duty multi-purpose fence
- Ideal for many different applications
- Long lasting - no welded spots to rust quickly
- Smooth knots will not injure animals or people
- Black is less visible - will blend into background

### Uses -

- Garden fence
- Horse paddock fence
- Parks and public areas
- Emu and ostrich enclosures
- Dog kennels and containment

Made in USA
